

"Take pride in how far you've come.
Have faith in how far you can go. But
don't forget to enjoy the journey."

-Michael Josephson

ALL RIGHTS RESERVED MARCH 2023

GLOBALLY IMPORTANT DAYS OF THE MONTH

1 March - Zero Discrimination Day To draw attention to the worsening inequality and injustice that currently exist around the world, Zero Discrimination Day 2023 calls for urgent action to end those differences related to income, gender, age, overall health, profession, impairment, sexual preference, substance use, gender identification, racial

group, class, ethnic background, and religion.

3 March - World Wildlife Day World Wildlife Day 2023 will be celebrated on March 3, 2023 around the globe. The purpose of the day is to promote wildlife interest and promote people to learn about the wide range of plants and animals all around the globe. Another way of saying this is that it is the commemoration of all the wonderful species that call Earth home.

4 March - National Safety Day India will celebrate the National Safety Day 2023 on March 4, 2023. The National Safety Day/Safety Week Program emphasizes the need of reducing the incidence of industrial accidents, as well as the necessity of focusing on sectors that haven't even been protected through any safety laws, such as construction sites.

CAMPUS CLANDESTINE

The month of February was inundated with practice sessions for the Annual Day celebrations. The children learnt more about pet animals, how to take care of them and the role of PETA in the month. Thursday activities reinforced the concepts learnt in class. Reggio Emilia activity, Map activity, Annual Theme activity, Skill building activities not just provided variety in learning experiences but also provided the platform for the children to think critically and creatively.

8 March - International Women's Day International Women's Day is an occasion to celebrate the progress made towards achieving gender equality and women's empowerment but also to critically reflect on those accomplishments and strive for a greater momentum towards gender equality worldwide.

22 March - World Water Day

On March 22, the globe celebrates World Water Day, a time to spread education about the significance of clean drinking water and the need to manage its supplies sustainably. On this day, people all around the globe are reminded of the global water problem. One of the most important things to have been access to clean drinking water.

SYLLABUS

ENGLISH

- ❖ Halving up to 50

HINDI

साहित्य— दोस्त की मदद ❖ व्याकरण—पुनरावृत्ति ❖ विशेषण ❖ क्रिया ❖ (१-५०) तक संख्यावाची (पुनरावृत्ति)

Dear Parents,

As springtime draws to a close and we stand at the doorstep of warm and bright summer days ahead, it has added a new life, a new colour, a new joy and a new beat to everything around the school campus. A new academic year awaits us this month. The fruits of the efforts put in for the last year have been rewarding. Now a new set of exciting facts and activities await us.

In today's dynamic world, Education is an asset. However holistic education does not end at learning. We make sure that our students are rooted in the values of Indian culture and yet maintain a global outlook. It's our promise to make them not only successful human beings but also good human beings. We aspire to provide quality education to all, with a balanced and relevant curriculum.

The parents are the most strengthening power in moulding the future of children. Their consistent support empowers us to do more and more. The active participation and involvement of the teachers and parents can create a positive empowerment for every student. As Nelson Mandela said "Education is the most powerful weapon, which you can use to change the world". And I am sure that our students will make all of us very proud. Let us continue to work together to make better citizens and a beautiful place for everyone to dwell.

Warm Regards,
Principal

ART SYLLABUS

Art & Poetry and Preparation of the art Curated Show

This chapter enhances children's imagination. Children would create paintings inspired by the poem.

TONGUE TWISTERS

Of all the felt,
I ever felt
I never felt
A piece of felt
Which felt as fine
As that felt felt
When first I felt
That felt hat's felt.

THEME OF THE MONTH- RECAPITULATION OF ALL THEMES

The academic year 2022-23 was welcomed by the students and the teachers alike as we came out of the shadow of the pandemic. We welcomed this academic session with a lot of relief and a new zest for learning with exciting themes and projects lined up throughout the year. The session began with the Theme 'Classroom' and the Project 'Reading Area' which encouraged the students to explore their classroom more and develop the habit of reading. The Theme 'Water' and Project 'Water Bottle' enabled the students to realise the importance of water and do everything possible to save it. The months of September and October piqued the students' interest about the community helpers and the tools that they use, also learning more about the parts of a seed through the Theme 'Gardener' and Project 'Seeds'. The Theme 'Food' and Project 'Bread' encouraged the students to enjoy the interesting nutritional facts about food and balanced diet, all the while exploring the different types of breads, which form a part of the staple food all over the world, irrespective of the culture or creed. Animals are an integral part of the environment and our life. Through the Theme 'Animals' and Project 'Grass', students were encouraged to dig up into their previous knowledge about animals to understand new vocabulary words and concepts about their homes, food habits, habitats as well as their sounds and babies. The project helped them understand more about grasses which are the highest primary producers on land with many being used for a variety of purposes other than just being fodder to the livestock.

PARENTAL TIPS

1. Teach your child how to seek so that they can learn to find. Let them explore so they can discover.
2. Appreciate every creative effort of the child and laud his achievements irrespective of their artistic merit. This will inspire him/ her to keep trying.
3. Encourage your child to take small decisions. Good decisions will make them successful in life.

AMAZING FACTS

- The blue whale can produce the loudest sound of any animal. At 188 decibels, the noise can be detected over 800 kilometers away.
- Horses and cows sleep while standing up.
- Even when a snake has its eyes closed, it can still see through its eyelids.
- Unlike humans, sheep have four stomachs, each one helps them digest the food they eat.
