

**“संस्कृति: संस्कृताश्रिता”**

Dear Parents

DPS Patna has always sought parental advocacy in all matters pertaining to students' interest and there is no better way of ascertaining your response than through direct communication.

Sanskrit has emerged as a world heritage language in schools and universities across the globe, spanning countries like Germany, USA and others. Keeping in view the utility and global acceptability of the language, we have already introduced Sanskrit in Class IV from session 2019-20. It is encouraging to note the parents' inclination for this ancient yet contemporary computer-friendly language. Students too, would benefit by this value-addition to their skill kit.

Hence, we have decided to increase the number of seats in Sanskrit in place of Hindi, for the next batch of Class-IX students, in the session 2022-2023. According to the preliminary plan framed, a maximum of 80 students divided into two sections will be allowed to opt for Sanskrit. However, if more than 80 students show a desire for the same, the school will consider the students' performance in the Pre, Post and Mid Term Assessment as selection criteria for the same.

**Once a child has opted for Sanskrit, it will be deemed final and there will be no provision for a change to Hindi at any stage thereafter.**

We look forward to a prompt response by **30 October, 2021 (Saturday)**. The consent form, duly filled should reach us by the aforementioned date via the Class Teacher.

Warm regards

**Sd/-
