GAMES @ DELHI PUBLIC SCHOOL/KHOJ

Games and activities help students to discover their hidden talents and make them learn about many things. The basic instinct of a child is to explore and to keep this spirit alive and enhance further. It is with this purpose that many interesting outdoor and indoor activities were organized. These activities were entertaining and enthralling which also taught them to follow rules and developed a sense of discipline.

The event 'Khoj' lived up to its name as the students set off to discover the fascinating aspects of the evening that they had waited for so long! The various activities that had been planned for them ensured their wholehearted participation and enthusiasm.

The next interesting game was 'Feed the Demon' where the children had to feed the demon by throwing a ball into his mouth from a certain distance. Player with three successful attempts was declared the winner.

'Ring the Gift' was all about building concentration. The children had to toss plastic rings around the gift items which ensured them a gift.

To enhance the concentration and control over bodily actions, an interesting activity 'Squid Game' was organized. Music of squid game was played after the green light is shown and students started moving and when the red light was displayed students stopped moving, Students caught moving even a bit after red signal, got disqualified and the winner was awarded a gift.

'Pyramid Hunting' was another interesting game. In this activity students formed a pyramid with the help of paper/steel glasses to be hit with a ball by each participant. If the endeavour was successful, the child was declared winner.
