## Class: I

ALL RIGHTS RESERVED MARCH 2023

### GLOBALLY IMPORTANT DAYS OF THE MONTH

**1 March – Zero Discrimination Day** To draw an attention to the worsening inequality and injustice that currently exist around the world, Zero Discrimination Day 2023 calls for urgent action to end those differences related to income, gender, age, overall health, profession, impairment, sexual preference, substance use, gender identification, racial group, class, ethnic background, and religion.

**3 March – World Wildlife Day** World Wildlife Day 2023 will be celebrated on March 3, 2023 around the globe. The purpose of the day is to promote wildlife interest and promote people to learn about the wide range of plants and animals all around the globe. Another way of saying this is that it is the commemoration of all the wonderful species that call Earth home.

**4 March – National Safety Day** India will celebrate the National Safety Day 2023 on March 4, 2023. The National Safety Day/Safety Week Program emphasizes the need of reducing the incidence of industrial accidents, as well as the necessity of focusing on sectors that haven't even been protected through any safety laws, such as construction sites.

### CAMPUS CLANDESTINE

Children worked with great enthusiasm and showcased their hidden talents during the presentation of Jash ne Bachpan. Jodo Gyan activities like Number combination, Samya ke Usa Paar Ya Ees Paar, Picnic shopping and sharing is caring and Skip counting encouraged the children to revisit the math concepts and solve it quickly using manipulatives. Reggio Emilia activity Bubble Wrap painting motivated children to exhibit their art skills. Vocabulary game instilled confidence to frame sentences on their own. Picture dictation encouraged the children fine tune their listening skills. Children were aware of their neighbouring cities of their respective state during Map activity.

**8 March – International Women's Day** International Women's Day is an occasion to celebrate the progress made towards achieving gender equality and women's empowerment but also to critically reflect on those accomplishments and strive for a greater momentum towards gender equality worldwide.

**22 March – World Water Day** On March 22, the globe celebrates World Water Day, a time to spread education about the significance of clean drinking water and the need to manage its supplies sustainably. On this day, people all around the globe are reminded of the global water problem. One of the most important things to have been access to clean drinking water.

क्रिया की पुनरावृत्ति।ए लिंग और विपरीत शब्दों की पुनरावृत्ति।ए लिखित – तुकबंदी शब्द पुनरावृत्ति।ए अपठित गद्यांश(बहुवैकल्पिक प्रश्न)। पुनरावृत्ति।ए रचनात्मक लेखन।ए सम्पूर्ण पाठ्यक्रम की पुनरावृत्ति

Dear Parents,

As springtime draws to a close and we stand at the doorstep of warm and bright summer days ahead, it has added a new life, a new colour, a new joy and a new beat to everything around the school campus. A new academic year awaits us this month. The fruits of the efforts put in for the last year have been rewarding. Now a new set of exciting facts and activities await us.

In today's dynamic world, Education is an asset. However holistic education does not end at learning. We make sure that our students are rooted in the values of Indian culture and yet maintain a global outlook. It's our promise to make them not only successful human beings but also good human beings. We aspire to provide quality education to all, with a balanced and relevant curriculum.

The parents are the most strengthening power in moulding the future of children. Their consistent support empowers us to do more and more. The active participation and involvement of the teachers and parents can create a positive empowerment for every student. As Nelson Mandela said "Education is the most powerful weapon, which you can use to change the world". And I am sure that our students will make all of us very proud. Let us continue to work together to make better citizens and a beautiful place for everyone to dwell.

Warm Regards,  
Principal

### Art & Poetry

In this Project art will be integrated with literature. Children will read the poem by Prayag shukla and illustrate a portion of the poem and write an original poem in Hindi.

## **THEME OF THE MONTH- RECAPITULATION OF ALL THEMES**

The Theme My School motivated to learn to be aware of surroundings and explore different parts of the school. The Theme Trees made aware of the things we get from trees learnt about Afforestation and deforestation. Themes like Cobbler, Festivals and Salads connected to the children's real-life experiences. where they have encountered a community helper their day-to-day life and celebrated religious and national festivals with family and friends. The Theme Salads kindle their curiosity to taste and relish the different types of salads.

The project My School Bag encouraged the children to know about the uses of the school bag and its need. The Project Leaves kindle the curiosity to know about medicinal plants and different types of plants. The project Shoes gave hands on experience about the different materials used to make shoes and also they knew about parts of the Shoe. The project Dance enlightened the little minds about the different dance forms of India and also folk dances of different states. The topic Tomato motivated the children to learn about the Life Cycle of a tomato, different types of tomatoes and medicinal value of tomatoes.

### **PARENTAL TIPS**

- It's often hard for parents and kids to get together for a family meal, let's all spend quality time together. But there is probably nothing kids would like more.
- Get up 10 minutes earlier in the morning so you can eat breakfast with your child or leave the dishes in the sink and take a walk after dinner.
- Kids who aren't getting the attention they want from their parents often act out or misbehave because they're sure to be noticed that way.

### **AMAZING FACTS**

A tomato is technically a fruit that is something considered a vegetable. A fruit is defined as the edible part of the plant containing seeds, such as a tomato, whereas a vegetable is the stem, leaf or root.

When tomatoes were first introduced to Europe in the 16<sup>th</sup> Century, they were small, golden and cherry sized. This appearance gave them the name golden apples. Many European countries took this as inspiration and named them with gold names such as the German goldapfel.

## **TONGUE TWISTERS**

I see a kitten in the kitchen
