Dear Parents,
“Be the positivity you wish to see in the world”

Sometimes when we may think about the future, we can find ourselves lost in pessimistic visions that create nothing but unnecessary fear and worry in us. Since no one can really predict what is going to happen, I believe such thoughts are better to be avoided. They will not prevent anything and just worrying about something that may never even occur seems pointless if you look at it from a rational point of view. We must learn to practice optimistic view in every aspect of our lives.

Life Follows you!
Life follows you. Everything you experience in your life is a result of what you give out in your thoughts and feelings, whether you realize you have given them or not. Life is not happening to you. Life is following you. Your destiny is in your hands. Whatever you think, feel that will decide your life, life is not happening to you it is reacting to you. Everything in life is presenting itself to you so you can choose what you love and what you don't love, but only love brings what you want to you. Your mind is a powerful tool you can use, run your life. Even thousands of people in the worst imaginable situations who have changed their lives completely through gratitude. We know of miracles that have taken place in health where there seemed to be no hope, failed kidneys regenerate, eyesight is restored, tumors disappear, and bones grow and rebuild themselves. So feel grateful for each and everything in life. It is all about leading the life, not only living it!

It's the most wonderful time of the year! We're concluding the exciting year of 2022 and welcoming a new year. As we look back on 2022, we can do so with a great sense of collective pride. On behalf of everyone at the school, we would like to wish you a happy Christmas and best wishes for 2023!

Warm Regards,
Principal

**PROJECT OF THE MONTH – GIFTS**

A gift or a present is an item given to someone without the expectation of payment or anything in return. A gift giving is a fundamental part of human behaviour, emerging from a range of different cultural backgrounds. Children will understand the various types of gifts that one could give according to the age. Different occasions during which gifts are shared will also be discussed. The gifts that can be prepared with eco-friendly materials and recycled materials will enhance the discussions. It is highly important that they understand that it is our duty to share and gift to the needy too. The gift-wrapping materials and other accessories will pave a way for creative and enchanting discussions. Children will understand that the act of gifting is more important than the gifts themselves.

**PARENTAL TIPS**

- ❖ Let us make the children understand that party can make others happy too. Giving and helping less privileged during a birthday / any special day in the family at least once a year will add a magical charm of generosity in the little minds.
- ❖ Children can be encouraged to plant a tree on their Birthday and encourage a green birthday.

And a brand-new car
And seven gold fish in a jar
