

Dear Parent

“Children are naturally creative. It is our job to give them the freedom, material and space to let their creativity blossom to its full potential.”

Creating art expands a child’s ability to interact with the world around them and provides a new set of skills for self-expression and communication. Art cultivates important skills that benefit a child’s development. Keeping in mind the benefits that art has to offer in the visual, social and motor development of the children, we have designed an art curriculum that enables children to express themselves freely. Every year, we provide art material to children as part of exploration and discovery. Material provided is used in various art activities and projects.

Due to shortage of supply in bulk from the company, we could not provide one item of the art material in the beginning of the session. However, now this item is available at Integra. We request you to purchase the following material from the Integra shop before 16th July’22 and submit to the Class Teacher.

- Maped Oil Pastels: 24 shades @Rs.255/-

Your co-operation would enable the children to continue the exploration and discovery of their expression and creativity.

TEAM DPS
